NEW! CIMCO CONSTRUCTION MARKER BY edding®

Drill hole marker for permanently marking locations that are difficult to access on practically all materials that are free of dust, e.g. metal, stone, glass, wood and plastic.

With its long and narrow nib (20 mm), this marker is the ideal tool for marking those hard-to-reach places, for example, when drilling holes for installing shelves.

The point makes a 1 mm ø dot, while the quick-drying ink is waterproof and smudge-proof. Ink colour: black.
