OUR QUALITY PROMISE “MADE IN GERMANY”

Since 1827, CIMCO has remained true to its company philosophy of marketing tools in tried and trusted quality which meet the most stringent customer requirements.

Our quality concept “Made in Germany” defines the product range and can also be found in our service, logistics and sales. We place just as much value on the functionality of the tools as we do on

the safety during the application. Particular focus is placed on the optimised production of insulated safety tools, which are all tested individually in a water bath according to applicable standards at a voltage of 10,000 volts. Using industrial robots, this fully automated process is just one of the numerous developments in recent decades, that we can look back on with pride.
